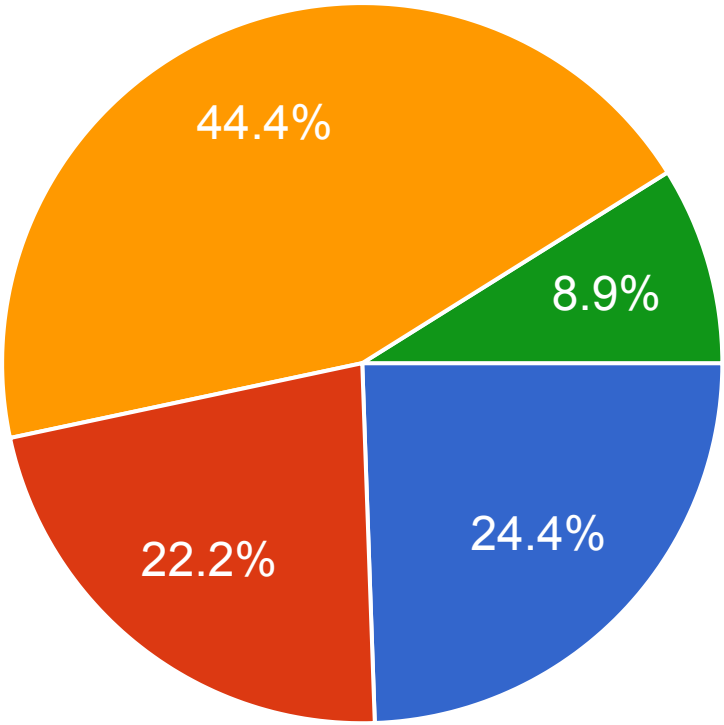
ANITA 2021 Workshop Exit Survey

Do you prefer in-person or zoom ANITA workshops?

Copy

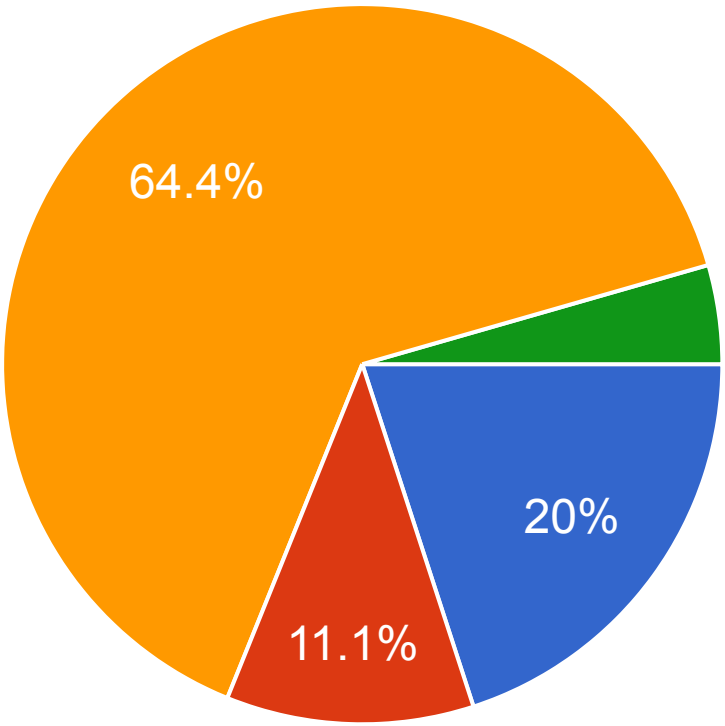
45 responses



Did you like the 3 weeks, two 2-hour sessions per week format?
 If we do have a zoom meeting in the future, should we:

Copy

45 responses



We had mixed-topic sessions with no talk titles to encourage participants to attend talks outside their usual field.

What else did you like / dislike about this workshop? How can we make ANITA workshops better in the future?

7 responses

Only one thing, send frequent reminders, i.e. a day before, then say 15min before talks start for each session.

I didn't attend.

More reminders because I missed half the first session because I forgot about it.

Bring back the physical meeting!!!! :)

The 2 hour block was about the maximum realistic block that (probably) most people can attend and pay attention (and for session chairs - no toilet break for 2 hrs is a lot for those of us who drink a lot of water haha). I think doing 90 - 120 min blocks is about right, over max 3-4 weeks. Two days per week is also a good form

think. Talks could go down to 10 mins but no less; 12 (+ discussion) is optimal.

Investigate auto-captioning for talks to make them more accessible.

Mixing up the topics was good (rather than a block), could have had more mixing though

Green Computing online summer school

Are you interested in participating in the Green Computing online summer school?
